

# THERE'S A FISH ON MY STREET!

## Simple Things You Can Do To Help Prevent Water Pollution

Did you know that water entering drainage ditches and storm drains is not treated before it flows directly into our local rivers, streams, and lakes?

Wash your car at a car wash facility.

Dry sweep, don't hose your driveway.

Cover bare soil.

Keep yard waste out of ditches and storm drains.

Keep your car leak-free.

Never fertilize before it rains.

Careful with chemicals - fertilizers, pesticides, ice melt. Don't over water.

Paint without pollution. Rinse latex paint brushes in the sink; filter and reuse oil-based paint thinners.

Recycle used motor oil. Do not pour down the storm drain.

Scoop the Poop

**REMEMBER: ONLY RAIN DOWN THE STORM DRAIN**
