Present Land Use/Zoning/General Plan Designation: The project site is currently developed with an existing 4,560-square foot (sf) school building and a driveway, which slopes downward to connect to Union Mills Road. The site is designated Open Space and Recreation (OSR) and is zoned Rural Residential with one dwelling unit per ten acres (RR-0.10).

Project Description: The proposed project would expand the Golden Valley Tahoe School at the existing school site, to construct four new buildings on four permanent foundations that would support four new classroom buildings. The classroom buildings would be made up of modular buildings, five of which have already been purchased from the Truckee Elementary School District and are being temporarily stored on-site. Three of the proposed buildings would be created by combining two modulars, and one building would consist of one standard size modular. The school would operate out of the existing 4,560-sf building, as well as the proposed modular buildings. It should be noted that all structures would be located immediately adjacent to previously disturbed areas of the site. The proposed project would increase the approved student capacity from 44 to 240 students. The proposed project would also include widening the existing 12-foot paved entrance road (Union Mills Road) to a 24-foot roadway with a two-foot-wide shoulder on both sides.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
